INDEPENDENT AUDITORS' REPORT

Board Members of the
Louisiana State Board of Architectural Examiners
9625 Fenway Avenue, Suite B
Baton Rouge, Louisiana 70809

We have audited the accompanying business-type activities of the Louisiana State Board of Architectural Examiners, a component unit of the State of Louisiana, as of and for the year ended June 30, 2010, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Louisiana State Board of Architectural Examiners' management. Our responsibility is to express an opinion on these financial statements based on our audit.

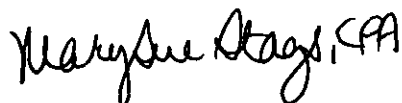

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Louisiana State Board of Architectural Examiners as of June 30, 2010, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 11, 2010, on our consideration of the Louisiana State Board of Architectural Examiners' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The required supplemental information, as listed in the table of contents, is not a required part of the basic financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Louisiana State Board of Architectural Examiners' basic financial statements. The accompanying supplemental information, as listed in the table of contents under Supplemental Schedules and Information and Other Required Supplementary Information, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(PART 1 OF 2)

**LOUISIANA STATE BOARD OF ARCHITECTURAL EXAMINERS
STATE OF LOUISIANA
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2010**

The purpose of this section is to offer a narrative overview and analysis of the Louisiana State Board of Architectural Examiners' (hereafter referred to as the Board) financial performance during the year ended June 30, 2010. This document focuses on the current year activities, resulting changes and currently known facts. It should be read in conjunction with the financial report taken as a whole.

Highlights of the Board as a Whole

- The Board's assets exceeded its liabilities by \$754,414 at June 30, 2010
- Revenues exceeded expenditures by \$28,544 for the year ended June 30, 2010
- Staff and board members continue to represent Louisiana on several national boards

Overview of the Financial Statement Presentation

These financial statements are comprised of these components – (1) management's discussion and analysis, (2) basic financial statements, (3) notes to the financial statements and (4) required supplemental information. There is also other supplemental schedules and information contained in this report provided for additional information.

Basic Financial Statements. The basic financial statements present information for the Board as a whole. Statements in this section include the following:

Statement of Net Assets. This statement presents information on all of the Board's assets and liabilities with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Board is improving or not.

Statement of Revenues, Expenses and Changes in Fund Net Assets. This statement presents information showing how the Board's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. This statement is designed to show the Board's financial reliance on general revenues.

Statement of Cash Flows. The change in cash as a result of current year operations is depicted in this statement. The cash flow statement includes a reconciliation of operating income (loss) to the net cash provided by or used for operating activities as required by GASB No. 34.

The basic financial statements can be found on pages 9-12 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The index of the notes is found on page 14 with the actual notes beginning immediately afterwards.

Required Supplemental Information. As a component unit of the State of Louisiana, the Board complies with the reporting requirements of the Division of Administration, Office of Statewide Reporting and Accounting. Included as other required supplemental information is the Louisiana Comprehensive Annual Financial Report completed with information relative to the Board.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain other information that is deemed useful to readers of this report.

LOUISIANA STATE BOARD OF ARCHITECTURAL EXAMINERS
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

INTRODUCTION

The Louisiana State Board of Architectural Examiners is a component unit of the State of Louisiana. It was created within the Office of the Governor as provided by Louisiana Revised Statute 37:142. The Board serves as a statewide authority to license and regulate the practice of architecture in the State of Louisiana.

The Board is composed of 7 members that are appointed by the Governor of the State of Louisiana and serve six-year terms. Five of the members must be licensed architects that have practiced architecture for at least 7 years. One of the members must be an architect employed for at least seven years prior to his/her appointment in architectural education or as an administrator of building design, construction or design standards for government at the local, state or national level. The remaining board member is one that is not actively engaged in or retired from the professions of architecture, engineering, interior design, landscape architecture or the design/construction of buildings. Board members, as authorized by Louisiana Administrative Code 46:317(C), may receive a per diem of \$138 per day in addition to actual expense reimbursement to attend meetings or conduct board-approved business.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting practice of the Louisiana State Board of Architectural Examiners conforms to generally accepted accounting principles as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:513 and to the guides set forth in the *Louisiana Governmental Audit Guide*, and to the industry audit guide *Audits of State and Local Governmental Units*.

The following is a summary of certain significant accounting policies:

Financial Reporting Entity: Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification) established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. For financial reporting purposes, in conformance with GASB Codification Section 2100, the Board is considered a component unit of the State of Louisiana because the State exercises oversight responsibility in that the Governor appoints the board members and public service is rendered within the State's boundaries. The accompanying financial statements present only the transactions of the Louisiana State Board of Architectural Examiners.

Fund Accounting: The Board uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate entity with a self-balancing set of accounts. Funds of the Board are classified under one category: proprietary. This category, in turn, is further divided into separate fund types. The fund classifications and a description of each existing fund type follow:

LOUISIANA STATE BOARD OF ARCHITECTURAL EXAMINERS
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

Proprietary Funds – account for activities that are similar to activities found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Proprietary funds of the Board include the following fund types:

1. Enterprise – account for operations (a) where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Basis of Accounting/Masurement Focus: In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles and are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration – Office of Statewide Reporting and Accounting Policy.

Basis of accounting refers to when revenues and expenses are recognized and reported and relates to the time of the measurement, regardless of the measurement focus applied. The fund financial statements of the Board are reported using an economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operation of business-type activities are included in the statement of net assets. Revenues are recognized when earned, and expenses are recognized at the time the liabilities are incurred. In these statements, capital assets are reported and depreciated in each fund, and long-term debt is reported.

Application of FASB Statements and Interpretations: Reporting on governmental-type and business-type activities is based on FASB Statements and Interpretations issued after November 30, 1989, except where they conflict or contradict GASB pronouncements.

Operating/Non-Operating Revenues: Proprietary funds separately report operating and non-operating revenues. Revenues from transactions of the Board's licensing activities are considered operating revenues. All other revenues, which are reported as cash flows from capital or non-capital financing and investing, are reported as non-operating revenues.

Budgets and Budgetary Accounting: Subject to the Louisiana Licensing Agency Budget Act established by Louisiana Revised Statutes 39:1331-1342, the Board adopts an annual budget prepared in accordance with the basis of accounting utilized by that fund. The Board must approve any revisions that alter the total expenditures. Although budget amounts lapse at year-end, the Board retains its unexpended net assets to fund expenditures of the succeeding year.

LOUISIANA STATE BOARD OF ARCHITECTURAL EXAMINERS
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS

Cash and Cash Equivalents: Cash and cash equivalents include amounts in demand deposits and certificates of deposit. Under state law, the Board may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents.

Investments: Investments are limited by Louisiana Revised Statute 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments. Otherwise, the investments are classified as cash and cash equivalents. In accordance with GASB Statement No. 31, investments are recorded at fair value with the corresponding increase or decrease reported in investment earnings.

Inventory: Inventory of the Board includes only office supplies and printed materials, the amount of which is considered immaterial. Therefore, the acquisition of these items is expensed when purchased, and the inventory on hand at year-end is not reported in the accompanying financial statements.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capital Assets: The Board's assets are recorded at historical cost. Depreciation is recorded using the straight-line method over the useful lives of the assets. Generally, the Board includes all capital acquisitions with a cost of \$5,000 in its fixed asset inventory. However, certain items at a cost below that amount may be capitalized if benefits of the item will extend beyond one year and/or the Board wants to monitor the item.

Compensated Absences: Employees of the Board had accumulated and vested \$29,526.32 in employee leave benefits as of June 30, 2010. This total was computed in accordance with GASB Codification Section C60.150.

Net Assets: In the statements of net assets, the difference between a government's assets and liabilities is recorded as net assets. The three components of net assets are as follows:

Invested in Capital Assets, Net of Related Debt

This category records capital assets net of accumulated depreciation and reduced by any outstanding balances of bonds, mortgages, notes or other borrowings attributable to the acquisition, construction or improvement of capital assets.

LOUISIANA STATE BOARD OF ARCHITECTURAL EXAMINERS
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS

Restricted Net Assets

Net assets reserved by external sources such as banks or by law are reported separately as restricted net assets. When assets are required to be retained in perpetuity, the non-expendable net assets are recorded separately from expendable net assets. These are components of restricted net assets.

Unrestricted Net Assets

This category represents net assets not appropriable for expenditures or legally segregated for a specific future use. Restricted resources are exhausted before unrestricted net assets are used.

NOTE 2 – CASH AND CASH EQUIVALENTS

The following is a summary of cash and cash equivalents at June 30, 2010:

	<u>Book Balance</u>	<u>Bank Balance</u>
Interest-bearing demand deposits	<u>\$ 539,399.77</u>	<u>\$ 566,444.14</u>

These deposits are stated at cost, which approximates market. Under state law, they must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding, or custodial bank that is mutually acceptable to both parties.

With the adoption of GASB Statement No. 40, only deposits that are considered exposed to custodial credit risk are required to be disclosed. The Board does not have any deposits that fall within this category. Deposits of the Board are secured with insurance through FDIC and collateral pledged by its agent banks.

NOTE 3 – INVESTMENTS

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured and unregistered, not registered in the name of the entity or are held either by the counter-party or the counter-party's trust department or agent but not in the entity's name. All investments of the Board are certificates of deposit with maturities extending beyond 90 days. They are not subject to custodial credit risk. At June 30, 2010, the Board had three certificates whose reported amount equaled its fair value as follows:

	<u>Maturity</u>	<u>Interest Rate</u>	<u>Amount</u>
Regions Bank	6/16/11	0.09%	\$ 116,537.63
Chase Bank	8/10/11	3.68%	79,074.01
Capital One	6/29/11	1.50%	<u>89,628.12</u>
Total			<u>285,239.76</u>

NOTE 4 – LEAVE

Annual and Sick Leave. The Board's employees earn and accumulate annual and sick leave at varying rates depending on their years of full-time service and are credited at the end of each month of regular service. Accumulated leave is carried forward to succeeding years without limitation. Requests for leave must be made to and approved by the Director. Upon termination, employees are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as current year expenditures when leave is earned. Only annual leave is accrued in the accompanying statement of net assets, the amount unpaid at June 30, 2010, being \$29,526.32.

Compensatory Leave. Non-exempt employees, according to the guidelines contained in the Fair Labors Standards Act, may be paid for compensatory leave earned. Upon termination or transfer, an employee is paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. This pay is based on the employee's hourly rate of pay at the time of termination or transfer. There was no compensatory leave time accrued at June 30, 2010.

NOTE 5 – RETIREMENT SYSTEM

Substantially all of the employees of the Board are members of the Louisiana State Employees Retirement System (System), a cost sharing multiple-employer, defined benefit pension plan. The System is a statewide public retirement system (PERS) for the benefit of state employees, which is administered and controlled by a separate board of trustees.

All full-time employees are eligible to participate. Benefits vest with 10 years of service. At retirement age, employees are entitled to annual benefits equal to 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service plus \$300 for employees hired before July 31, 1986. Vested employees are entitled to a retirement benefit, payable monthly for life at (a) any age with 30 years of service, (b) age 55 with 25 years of service or (c) age 60 with 10 years of service. An option of reduced benefits at any age with 20 years of service is available. The System also provides death and disability benefits. Benefits are established or amended by state statute. The System issues an annual financial report that is available to the public including financial statements and required supplementary information of the System. That report may be obtained by contacting the Louisiana State Employees Retirement System, P. O. Box 44213, Baton Rouge, La. 70804-4213, 225-922-0605 or 800-256-3000.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

Covered employees are required to contribute 7.5% of gross salary to the plan, and the Board is required to contribute at an actuarially determined rate as required by Louisiana R.S. 11:102. That rate for the year ended June 30, 2010 was 18.5%. Contributions to the System for the years ended June 30, 2010, 2009 and 2008, were \$25,910, \$24,887 and \$26,989, respectively.

NOTE 6 – POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

The Board may provide certain continuing health care and life insurance benefits for its retired employees through the Louisiana Office of Group Benefits. Substantially all of the Board's employees become eligible for those benefits if they reach normal retirement age while working for the Board and were covered by the Board's active medical plan immediately prior to retirement. Those benefits include joint payment of monthly premiums for the coverage provided.

Plan Description. The State of Louisiana's Other Post-Employment Benefit Plan (OPEB Plan) is an agent multiple-employer plan administered by the Louisiana Office of Group Benefits (OGB). There are three plans available to eligible retirees for health care – OGB Preferred Provider Organization (PPO), Humana Health Maintenance Organization (HMO) and United Exclusive Provider Organization (EPO). Participants eligible for Medicare coverage can choose one of two OGB Medicare Advantage Plans, either an HMO or private fee-for-service (PFFS) plan. Life insurance benefits include basic term life, basic plus supplemental term life, dependent term life and employee accidental death and dismemberment coverage. The policy is underwritten by The Prudential Insurance Company of America.

LRS 42:801-883 provides for the authority under which benefit provisions are established and may be amended. The OGB does not issue a stand-alone report; however, it is included in the Louisiana Comprehensive Annual Financial Report (CAFR). The CAFR may be obtained from Office of Statewide Reporting and Accounting Policy's website at www.doa.la.gov/osrap, writing to P. O. Box 94095, Baton Rouge, LA 70804-9095 or by calling 225-342-0708.

Funding Policy. LRS 42:801-883 provides for the authority under which the obligations of the plan members and the system are established and may be amended. For employees hired prior to January 1, 2002, the cost of coverage is shared 25% by the participant and 75% by the Board with the exception of single retirees under age 65. He/she must pay 25% of the active employee cost. Employees hired on or after January 1, 2002, pay a percentage of the total contribution rate based on his/her years of service at retirement (under 10 yrs. – 81%; 10-14 yrs. – 62%; 15-19 yrs. – 44%; 20+ yrs. – 25%). A lifetime maximum for healthcare benefits is set at \$5,000,000 for the PPO, HMO and EPO plans. The retiree must pay 50% of the life insurance premiums for him or herself and 88% for his/her spouse. Maximum coverage is capped at \$50,000.

Premiums paid for healthcare coverage vary depending on the plan chosen. For the year ended June 30, 2010, this amount ranges from \$315 to \$341 per month for single members with Medicare or \$969 to \$1,049 per month without Medicare.

LOUISIANA STATE BOARD OF ARCHITECTURAL EXAMINERS
STATE OF LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

Premiums paid for retiree and spouse range from \$1,164 to \$1,261 per month for those with Medicare or \$1,710 to \$1,853 per month for those without Medicare. The rates for retirees with children are slightly higher than the single rates and family coverage is slightly higher than the retiree/spouse rates. The plan is currently financed on a pay-as-you-go basis by the Board.

OPEB Cost/Obligation. The Board's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, would cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. A level percentage of payroll amortization method, open period, was used. The total ARC for the year beginning July 1, 2009, is as follows:

Normal cost	\$ 4,600
30 year UAL amortization amount	<u>11,000</u>
Annual Required Contribution (ARC)	<u>15,600</u>

The Board's OPEB obligation for the year ended June 30, 2010, is as follows:

Annual required contribution/OPEB Cost	\$ 15,600
Adjustments for interest and amortization	59
Contributions made	<u>-0-</u>
Change in Net OPEB Obligation	15,659
Net OPEB obligation, beginning	<u>33,229</u>
Net OPEB obligation, ending	<u>48,888</u>

Utilizing the pay-as-you-go method, the Board contributed 0% of the annual post-employment benefits cost during the current year. Because this is the first year of implementation, information for prior years is not presented.

Funding Status and Funding Progress. As of June 30, 2010, the Board had not made any contributions to its post-employment benefits plan trust. A trust was established during the current year but was not funded although the Board did designate \$310,000 of its retained earnings for future post-employment benefits. Thus, it has no plan assets and a funding ratio of zero. Funding status and progress is summarized below.

Unfunded actuarial accrued liability (UAAL)	\$ 48,888
Covered payroll (active employees)	110,100
UAAL as a percentage of covered payroll	44%

Actuarial Methods/Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities consistent with the long-term perspective of the calculations.

In the July 1, 2009 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4% investment rate of return (net of administrative expenses) and initial annual healthcare cost trend rate of 9.5% and 10.6% for pre-Medicare and Medicare eligibles, respectively, scaling down to ultimate rates of 5% per year. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at July 1, 2009, was thirty years.

NOTE 7 – LEASES

Operating Leases. The Board previously executed a lease for office space for a term of five years beginning on August 1, 2002, payable at \$2,672.83 per month or \$32,073.96 annually. The lease includes an additional option term of five years which was exercised in July of 2007. For the year ended June 30, 2010, lease payments of \$35,281.32 were made.

A copier is being leased from Pitney Bowes and is paid on a month-to-month basis. Payments during the year were \$4,324.

Capital Leases. The Board has no capital leases.

**REPORT ON COMPLIANCE AND OTHER MATTERS AND
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board Members of the
Louisiana State Board of Architectural Examiners
9625 Fenway Avenue, Suite B
Baton Rouge, Louisiana 70809

We have audited the financial statements of the governmental activities and the aggregate remaining fund information of the Louisiana State Board of Architectural Examiners, a component unit of the State of Louisiana, as of and for the year ended June 30, 2010, which collectively comprise the basic financial statements as listed in the table of contents and have issued our report thereon dated August 11, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Louisiana State Board of Architectural Examiners' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

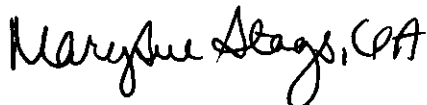

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Louisiana State Board of Architectural Examiners' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Louisiana State Board of Architectural Examiners' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Louisiana State Board of Architectural Examiners' internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management and Legislative Auditor and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, the Legislative Auditor distributes this report as a public document.

MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF JUNE 30, 2010**

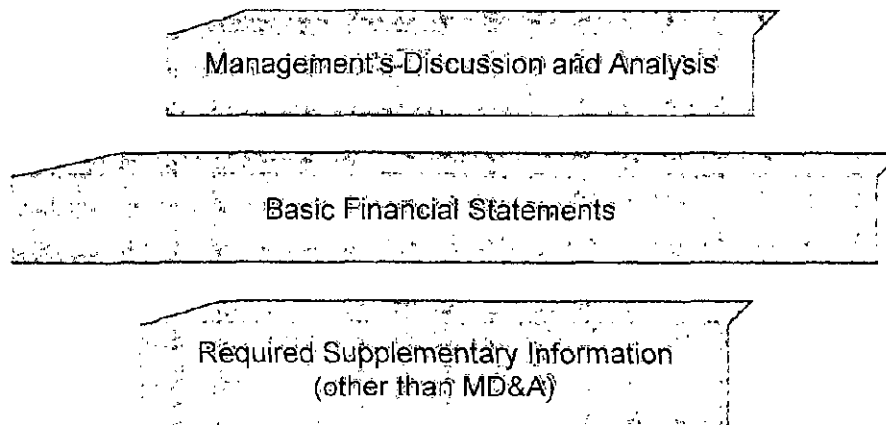

Management's Discussion and Analysis of the Louisiana State Board of Architectural Examiners' financial performance presents a narrative overview and analysis of the Board's financial activities for the year ended June 30, 2010. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the additional information contained in the financial statements.

FINANCIAL HIGHLIGHTS

- ★ The Board's assets exceeded its liabilities by \$754,414 at June 30, 2010
- ★ Revenues exceeded expenditures by \$28,544 for the year ended June 30, 2010
- ★ Staff and board members continue to represent Louisiana on several national boards

OVERVIEW OF THE FINANCIAL STATEMENTS

The following graphic illustrates the minimum requirements for Special Purpose Governments Engaged in Business-Type Activities established by Governmental Accounting Standards Board Statement 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the Basic Financial Statements (including the notes to the financial statements), and Required Supplementary Information.

Basic Financial Statements

The basic financial statements present information for the Board as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the Balance Sheet; the Statement of Revenues, Expenses, and Changes in Fund Net Assets; and the Statement of Cash Flows.

The Balance Sheet presents the current and long-term portions of assets and liabilities separately. The difference between total assets and total liabilities is net assets and may provide a useful indicator of whether the financial position of the Board is improving or deteriorating.

STATE OF LOUISIANA
BOARD OF ARCHITECTURAL EXAMINERS
MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF JUNE 30, 2010

The Statement of Revenues, Expenses, and Changes in Fund Net Assets presents information showing how the Board's assets changed as a result of current year operations. Regardless of when cash is affected, all changes in net assets are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

The Statement of Cash Flows presents information showing how the Board's cash changed as a result of current year operations. The cash flow statement is prepared using the direct method and includes the reconciliation of operating income(loss) to net cash provided(used) by operating activities (indirect method) as required by GASB 34.

Restricted net assets represent those assets that are not available for spending as a result of legislative requirements, donor agreements, or grant requirements. Conversely, unrestricted net assets are those that do not have any limitations on how these amounts may be spent.

Net assets of the Board increased by \$28 or 4%, from June 30, 2009 to June 30, 2010. The primary reason is due to the implementation of GASB No. 45 Other Post-Employment Benefits.

VARIATIONS BETWEEN ORIGINAL AND FINAL BUDGETS

Revenues were approximately \$5,481 or 1% under budget and expenditures were less than budget by \$89,920 or 17% due in part to sound management practices.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Board elected and appointed officials considered the following factors and indicators when setting next year's budget, rates, and fees:

- Potential impact of the depressed economy on the architectural profession
- Staffing needs

The Board expects that next year's results will improve based on the following:

- Hardware/software enhancements for online processing is complete

Notes to the Financial Statements

INTRODUCTION

The Board was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 37:142. The following is a brief description of the operations of Board and includes the parish/parishes in which the Board is located:

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of the Board present information only as to the transactions of the programs of the Board as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the Board are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration – Office of Statewide Reporting and Accounting Policy as follows:

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. BUDGETARY ACCOUNTING

The appropriations made for the operations of the various programs of the Board are annual lapsing appropriations.

1. The budgetary process is an annual appropriation valid for one year.

STATE OF LOUISIANA
BOARD OF ARCHITECTURAL EXAMINERS
Notes to the Financial Statements
As of and For the Year Ended June 30, 2010

2. The agency is prohibited by statute from over expending the categories established in the budget.
3. Budget revisions are granted by the Joint Legislative Committee on the Budget, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
4. The budgetary information included in the financial statements includes the original appropriation plus subsequent amendments as follows:

	<u>APPROPRIATIONS</u>
Original approved budget	\$ <u>537,325</u>
Amendments:	<u> </u>
	<u> </u>
	<u> </u>
Final approved budget	\$ <u>537,325</u>

C. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

1. DEPOSITS WITH FINANCIAL INSTITUTIONS

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposit. Under state law the Board may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further, the (BTA) may invest in time certificates of deposit in any bank domiciled or having a branch office in the state of Louisiana; in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

For the purpose of the Statement of Cash Flows and balance sheet presentation, all highly liquid investments (including negotiable CDs and restricted cash and cash equivalents) and deposits (including nonnegotiable CDs and restricted cash and cash equivalents) with a maturity of three months or less when purchased are considered to be cash equivalents.

Deposits in bank accounts are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities are required to be held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer.

GASB Statement 40, which amended GASB Statement 3, eliminated the requirement to disclose all deposits by three categories of risk. GASB Statement 40 requires only the disclosure of deposits

that are considered to be exposed to custodial credit risk. An entity's deposits are exposed to custodial credit risk if the deposit balances are either 1) uninsured and uncollateralized, 2) uninsured and collateralized with securities held by the pledging financial institution, or 3) uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the entity's name.

The deposits at June 30, 2010, consisted of the following:

	Cash	Nonnegotiable Certificates of Deposit	Other (Describe)	Total
Deposits per Balance Sheet (Reconciled bank balance)	\$ 539,400	\$	\$	\$ 539,400
Deposits in bank accounts per bank	\$ 566,444	\$	\$	\$ 566,444
Bank balances exposed to custodial credit risk:	\$	\$	\$	\$
a. Uninsured and uncollateralized				
b. Uninsured and collateralized with securities held by the pledging institution				
c. Uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the entity's				

The following is a breakdown by banking institution, program, and amount of the "Deposits in bank accounts per bank" balances shown above:

<u>Banking Institution</u>	<u>Program</u>	<u>Amount</u>
1. Regions Bank	Operations	\$ 100,000
2. Hancock Bank	Operations	466,444
3.		
4.		
Total		\$ 566,444

Cash in State Treasury and petty cash are not required to be reported in the note disclosure. However, to aid in reconciling amounts reported on the balance sheet to amounts reported in this note, list below any cash in treasury and petty cash that are included on the balance sheet.

D. CAPITAL ASSETS – INCLUDING CAPITAL LEASE ASSETS

The fixed assets used in the Special Purpose Government Engaged only in Business-Type Activities are included on the balance sheet of the entity and are capitalized at cost. Depreciation of all exhaustible fixed assets used by the entity is charged as an expense against operations. Accumulated depreciation is reported on the balance sheet. Depreciation for financial reporting purposes is computed by the straight line method over the useful lives of the assets.

G. LEAVE

1. COMPENSATED ABSENCES

The Board's employees earn and accumulate annual and sick leave at various rates depending on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as current year when the leave is earned. Only annual leave is accrued in the accompanying statements of net assets, the amount unpaid at June 30, 2010, being \$29,526.

2. COMPENSATORY LEAVE

Non-exempt employees, according to the guidelines contained in the Fair Labors Standards Act, may be paid for compensatory leave earned. Upon termination or transfer, an employee is paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. This pay is based on the employee's hourly rate of pay at the time of termination or transfer. There was no compensatory leave time accrued at June 30, 2010.

H. RETIREMENT SYSTEM

Substantially all of the employees of the Board are members of the Louisiana State Employees Retirement System (LASERS), a single employer defined benefit pension plan. The System is a statewide public employee retirement system (PERS) for the benefit of state employees, which is administered and controlled by a separate board of trustees.

All full-time Board employees are eligible to participate in the System unless they elect to continue as a contributing member in any other retirement system for which they remain eligible for membership. Certain elected officials and officials appointed by the governor may, at their option, become members of LASERS. Normal benefits vest with 10 years of service. Generally, retirement age employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service except for members eligible to begin participation

STATE OF LOUISIANA
BOARD OF ARCHITECTURAL EXAMINERS

in the Defined Benefit Plan (DBP) on or after July 1, 2006. Act 75 of the 2005 Regular Session changes retirement eligibility and final average compensation for members who are eligible to begin participation in the DBP beginning July 1, 2006. Retirement eligibility for these members is limited to age 60, or thereafter, upon attainment of ten years of creditable service. Final average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment.

Vested employees eligible to begin participation in the DBP before July 1, 2006, are entitled to a retirement benefit, payable monthly for life at (a) any age with 30 years of service, (b) age 55 with 25 years of service, or (c) age 60 with 10 years of service. In addition, these vested employees have the option of reduced benefits at any age with 20 years of service. Those hired on or after July 1, 2006 have only a single age option. They cannot retire until age 60 with a minimum of 10 years of service. The System also provides death and disability benefits and deferred benefit options, with qualifications and amounts defined by statute. Benefits are established or amended by state statute. The System issues a publicly available annual financial report that includes financial statements and required supplementary information for the System. For a full description of the LASERS defined benefit plan, please refer to the LASERS 2008 Financial Statements, specifically, footnotes A – Plan Description and C – Contributions. That report may be obtained by writing to the Louisiana State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0608 or (800) 256-3000. The footnotes to the Financial Statements contain additional details and are also available on-line at:

http://www.lasers.state.la.us/PDFs/Publications_and_Reports/Fiscal_Documents/Comprehensive_Financial_Reports/Comprehensive%20Financial%20Reports_08.pdf

Members are required by state statute to contribute with the single largest group ("regular members") contributing 7.5% of gross salary, and the Board is required to contribute at an actuarially determined rate as required by R.S. 11:102. The contribution rate for the fiscal year ended June 30, 2010, 18.5% of annual covered payroll remained the same from the last fiscal year ended June 30, 2009. The Board contributions to the System for the years ending June 30, 2010, 2009, and 2008, were \$25,910, \$24,887, and \$26,989, respectively, equal to the required contributions for each year.
